

Nutritional Content and Food Service Operations

The following guidelines shall be in effect:

- A. Only food or beverages that meet the minimal nutritional values, as defined by the Food and Nutrition Service of the U.S. Department of Agriculture may be sold or served in the school until 30 minutes after the last lunch period. Such a provision specifically precludes the sale of carbonated beverages, water-ices unless made with fruit juice, licorice, marshmallow candies, chewing gum, candies, fondant, spun candy and candy-coated popcorn.
- B. Foods that meet the minimum nutrition values include, but are not limited to, corn chips, beef jerky, popcorn, fruit, cheese & crackers, 100% fruit juices, peanuts, sunflower seeds, granola bars, low fat yogurt, pretzels, trail mix, low fat and nonfat milk.
- C. Apple or other fresh fruit machines are acceptable at all times.
- D. Food that is sold must meet the health department's standards in regard to storage, preparation and serving.
- E. Students and staff will have access to safe, fresh drinking water throughout the school day.
- F. School staff should encourage non-food alternatives as student rewards.

School Cafeterias

- A. Any student may eat in the school cafeteria or other designated place.
- B. Meal prices will be established by the Superintendent and Food Service Supervisor, with the approval of the Board at the beginning of each year.
- C. Healthy option foods should be competitively priced.

Nutrition Education

Nutrition education at all levels of the district's integrated curriculum should include, but not be limited to, the following essential components designed to help students learn:

- A. Age-appropriate nutritional knowledge, including understanding the relationship of nutrition and food nutrients to physical performance and body composition; recognizing patterns of growth and development; understanding the concept of control and prevention of disease; acquiring skills to live safely and reduce health risks; understanding how environmental factors affect health; learn the benefits of healthy eating; understand essential nutrients; learn about nutritional deficiencies;
- B. understand the principles of healthy weight management; understand the use and misuse of dietary supplements; learn safe food preparation, handling, and storage; and appreciate cultural diversity related to food and eating;

- C. Age-appropriate nutrition-related skills, including gathering and analyzing health information; using social skills to promote health and safety; understand how emotions influence decision making; analyze health and safety information and develop a health and fitness plan and a monitoring system, to plan and prepare a healthy meal, understand and use food labels, and to critically evaluate nutrition information, misinformation, and commercial food and advertising; and
- D. How to assess one's personal eating habits, set goals for improvement, and achieve those goals.

Nutrition and Food Services Operation

In order to support the school's nutrition and food services operation as an essential partner in the educational mission of the district and its role in the district's comprehensive nutrition program, the superintendent is responsible for:

- A. Encouraging all students to participate in the school's child nutrition meal program.
- B. Providing varied and nutritious food choices consistent with the applicable federal government Dietary Guidelines for Americans.
- C. Providing adequate time and space to eat meals in a pleasant and safe environment. Schools shall ensure:
 - 1. Seating is not overcrowded;
 - 2. Rules for safe behavior are consistently enforced;
 - 3. Appropriate supervision is provided; and
 - 4. For recess held in conjunction with the lunch period, recess should be scheduled prior to the lunch period for elementary students.

Family and Community Involvement

In order to promote family and community involvement in supporting and reinforcing nutrition education in the schools, the school principal is responsible for ensuring:

- A. Nutrition education materials are made available to parents;
- B. Parents are encouraged to promote their child's participation in the school meals program. If their children do not participate in the school meal program, parents should provide their children with healthy snacks/meals;
- C. Families are invited to attend exhibitions of student nutrition projects or health fairs;
- D. Nutrition education curriculum includes homework that students can do with their families (e.g., reading and interpreting food labels, reading nutrition-related newsletters, preparing healthy recipes, etc);

- E. School staff are encouraged to cooperate with other agencies and community groups to provide opportunities for student projects related to nutrition, as appropriate; and
- F. School staff will consider the various cultural preferences in development of nutrition education programs and food options.

Health and Fitness

It is the district's position that all students have equal and equitable opportunities for physical activity and fitness education in our schools. The Superintendent is encouraged to review and consider implementing physical activity and fitness education program improvements. The goals of the district are:

- A. All children, from kindergarten through grade 8, will participate in a quality, standards-based physical activity/fitness education program;
- B. All schools will have certificated physical education teachers providing instruction; and

Schools shall require students in grades one through eight to engage in physical education averaging 100 instructional minutes per week.

Access to school sites will be provided through permitting use of facilities to community youth sports groups consistent with the district's facilities use policy, community college and municipal joint use agreements and partnerships with youth organizations so additional opportunities are available for all youth in our communities to participate in quality physical activity, fitness, sports and recreation programs.

Schools should identify safe and active routes to school and promote alternative methods for children to travel to and from school, such as walking and bicycle programs.

Schools shall prohibit the use of physical activity and withholding of physical education class and other forms of physical activity as punishment.

Family and Community Involvement

In order to promote family and community involvement in supporting and reinforcing physical education in the schools, the school principal is responsible for ensuring:

- A. Parents are encouraged to promote their child's participation in the school's physical education programs and after school activities;
- B. Families are invited to attend and participate in physical education activity programs and health fairs;
- C. Physical education curriculum considers including homework that students can do with their families;
- D. School staff consider the various cultural preferences in development of physical education programs; and

- E. School staffs are encouraged to cooperate with other agencies and community groups to provide opportunities for students to participate in physical activity programs.

Evaluation

Nutrition:

In order to evaluate the effectiveness of the school health program in promoting healthy eating and to implement program changes as necessary to increase its effectiveness, the superintendent is responsible for evaluating and assessing whether the Board Policy and Procedure are implemented, including a periodic assessment of the school meal program with input from students, parents and staff.

Physical Education:

District physical activity/health and fitness programs will be monitored and assessed regularly in conjunction with other district academic and health-related programs. Results of any monitoring and assessments should be reported to the Board, school sites, and made available to parents and community on an annual basis.

Wellness:

In the fall of each year a wellness team will be organized to set goals for the coming year. These goals will be monitored, assessed for effectiveness, and the results shared.
